A Specially Formulated Golden Biscuit Wash for the Presentation of Sheep Prior to Show & Sale

Benefits of Golden Biscuit Sheep Wash

- ✓ Colours the Fleece
- ✓ Contains Waterproofing Oils
- ✓ Suitable for All Sheep Types
- ✓ Purls, Tightens and Conditions
- ✓ Improves Appearance for Show and Sale

DIRECTIONS FOR USE

Golden Biscuit Sheep Wash is for external animal use only. Dilute at 1:100. Replenish after 25% bath volume drop at 1:100. In hard water add 1kg of Washing Soda per 500L of water, allow to stand a minimum of 2 hours before use.

FOR BEST APPEARANCE

Sheep look best within the first 7 days after application.

PREPARE THE BATH

- Ensure the bath is clean
- Fill the bath with the required volume of cold water
- Dispense the wash solution into the bath using the table below for accuracy of volume required
- Stir the bath thoroughly from end to end before commencing dipping.

TO DIP THE SHEEP

- Immerse the sheep in the bath.
- Keep the sheep moving forward.
- Care should be taken that the sheep do not swallow or inhale the wash.

Golden Biscuit Sheep Wash	Water Quantity
1 litre	100 litres
5 litres	500 litres
7.5 litres	750 litres
10 litres	1,000 litres
15 litres	1,500 litres
20 litres	2,000 litres

TO REPLENISH THE BATH

- Replenish after 25% water volume drop i.e. in a 1,000 litre bath, replenish when bath volume has dropped by 25% (250 litres). Replenish at 1 litre per 100 (on 250 litres, use 2.5 litres of wash)
- General rule, never dip more than 2 sheep per gallon (4.54 litres) of original bath volume.

REPLENISH RATES

Golden Biscuit Sheep Wash	Water Quantity
1 litre	100 litres

IMPORTANT

Never dip heated, tired or thirsty sheep. Dipped sheep should be allowed to drip in open space and shade. Always skim off bath surface scum. Discard used wash after seven days. Discard seriously fouled baths at once. As a general rule never dip more than 2 sheep per gallon of original bath volume.

Available in 5 litre pack (sold as 2 x 5 litres)
