

- Product Name:** MOSGO GREEN REMOVER
- Contents:** Benzalkonium Chloride. Formulation: Soluble Concentrate.
- Use:** Control of green growth (Moss) on tarmac, brick, slate, tile roofs and on stone or concrete surfaces.
- General Description:** The treated surface should be thoroughly soaked. Apply under conditions of good growth, when rain is not expected. In ideal conditions treatment should be effective after 3-4 days if applied correctly. If required, dead moss can then be brushed from the surface.
- Rates of Application:**
- For light growth:** Dilute Mosgo Green Remover 1 (one) part with 10 (ten) parts water i.e. 1 litre product with 10 litres water to give a final volume of 11 litres solution. The diluted liquid should be sprayed or brushed on the surface to be treated at the rate of 11 L of mixture to 40m<sup>2</sup>.
- For heavy growth:** Dilute Mosgo Green Remover 1 (one) part with 5 (five) parts water i.e. 1 litre product with 5 litres water to give a final volume of 6 litres solution The diluted liquid should be sprayed or brushed on the surface to be treated at the rate of 6 L of mixture to 20m<sup>2</sup>.
