# Hygeia

## Award winning innovation since 1939

For over 80 years, we have been producing high performance products to the Irish and U.K markets. We continue to offer innovative and more environmentally aware solutions to a variety of gardening challenges and are committed to our growth within the Irish and UK markets in the consumer and amenity sectors. Our decades of experience and extensive research have resulted in an expertly designed, diverse range of products including current market leaders as well as new and exciting developments for 2024. We at Hygeia remain committed to providing first class customer service and support through valued partnerships with our customers.

# Hygeia's History

**In 1939, Dr Donny Coyle had a vision. As a vet and entrepreneur, he knew that more cereal would have to be grown to meet the demands of the impending Second World War and that these seeds would need to be treated to protect them and ensure maximum yields.**

He set up Hygeia Chemicals Ltd to provide a much-needed solution for the Irish farmer to protect crops and livestock. He succeeded in that goal and now over 80 years later the company manufactures and distributes a wide range of garden care products alongside its agricultural and veterinary offering. We continue to innovate and adapt to the market, with decades of expertise, research and development at the heart of everything we do.

While still a family owned company, it is clear to see that Hygeia has never stood still. We have continued to move with consumer demand and

have anticipated and responded to changes in the marketplace. We have developed a sophisticated online presence and attractive consumer branding to support our high-quality and proven effective garden care products. From our beginnings as a seed treatment facility, we are now a highly respected and well-established consumer brand with a number of market leading products in the Irish market and, more recently, the UK.

With a large manufacturing and packaging facility on the outskirts of Galway City and a professional production facility we are dedicated to blending and packing chemicals to GMP quality standards.

Innovation, quality and excellence are the core attributes that Hygeia works to. The company is constantly creating and developing new products to satisfy the consumer while still caring for and improving the environment.

# LAWN SPREADER GUIDANCE

Ensure your customers get the very best from their lawn feed, weed and moss killer by combining correct application rates with recommended spreading practices.

**PLEASE NOTE:** The following settings are for guidance only as discharge rates can vary slightly depending on a number of factors. It is always advisable therefore for each operator to verify the required setting in advance of overall application.

Spreader Type	Easy Spreader +	Easy Green Rotary Spreader	Drop Spreader	Classic Spreader 300	Drop Lawn Spreader (Purple)	Drop Lawn Spreader (Green)
Green Force 4 in 1 Lawn Feed & Mosskiller 20g/m <sup>2</sup>	4	26.5	4.5			
Gardeners Choice Lawn Weed Feed & Mosskiller 32g/m <sup>2</sup>	4.5	27	6	3.5	4	3.5
Goulding Autumn Lawn Feed 20g/m <sup>2</sup>	4	26.5	4.5			
Goulding Autumn Lawn Feed 30g/m <sup>2</sup>	4.5	27	5	3.5	4	3.5
Lawn Gold 50g/m <sup>2</sup>	5x2 applications					
Lawn Gold 125g/m <sup>2</sup>	7x2 applications					
Winter Project 37.5g/m <sup>2</sup>		27	6			
Winter project 75g/m <sup>2</sup>		27x2 applications	6x2 applications			

Calibration settings are given as a guidance only. The quantity of product discharged will depend on a number of factors, including walking speed of the operator, the evenness of the lawn surface and the condition of the spreader. Operators should verify the appropriate setting in advance of treating all of the lawn surface. This can be achieved by two means;

1. Weighing out a small amount of product and measuring the area that it treats.
2. Filling the spreader and engaging at the proposed setting. Placing a plastic sheet on the ground (taking care not to allow any of the product to get onto concrete or other hard surfaces). Moving the spreader to cover 1 square metre, then gathering up the granules on the sheet and weighing them.

Based on either of options above, if for example, you want to apply 20 grams and it is found that the area covered is more than this area, then the setting needs to be increased and vice versa if the area is smaller. Repeat the process until the optimum setting is attained. Avoid over application as it can lead to scorching of the grass. It is always prudent to apply the product at half the intended dose and apply twice over the area, applying the second application at right angles to the first. By doing this it minimises the risk of missing an area, ensuring an overall even green.

# HYGEIA LAWN GOLD

## All year round treatment

- ✓ Organic based lawn fertiliser
- ✓ Indirect action against moss
- ✓ No raking of treated moss

Lawn Gold feeds your lawn throughout the season and gives excellent indirect action against moss, helping to inhibit its growth, while also giving the grass all the nutrients it needs to out-compete the moss.

# Terms & Conditions

1. *The Seller shall not be bound by any terms or conditions whatsoever whether oral or otherwise except those set out herein and on the front hereof. No representative, agent or salesman has any authority to waive or vary any of these conditions.*
2. *The prices shown overleaf may be increased at any time by the Seller by giving written advice to the Buyer, provided that such advice is received by the Buyer before delivery. If the Buyer considers any such increase in price, unreasonable he may, within 14 days of receipt of the Seller's advice, cancel this order by giving written notice to the Seller, provided that he shall not have already accepted the goods.*
3. *The Seller shall not be responsible for any failure to deliver the goods sold nor for any delay in such delivery by reason of any circumstances not within the control of the Seller and the Seller shall be at liberty by reason of such circumstances to withhold, suspend or reduce deliveries to such extent as the Seller in its discretion may think fit.*
4. *All express or implied conditions and warranties, statutory or otherwise, as to quality or correspondence with description or sample or fitness for any purpose of the goods are hereby expressly excluded. All recommendations and advice given by the Seller or its servants or agents to the Buyer or agents to the Buyer or his servants or agents as to the mode of storing, handling, applying or using the goods are given without liability on the part of the Seller or its servants or agents, and no responsibility will be accepted by the Seller for any injury, loss or damage whatsoever arising directly or indirectly from their storage, handling application or use.*
5. *No claims for damage or shortages can be entertained unless written complaints are addressed both to carrier and Seller within seven days of delivery.*
6. *Save with the written agreement of Hygeia Chemicals Ltd., the company is unable to accept the return of any goods supplied pursuant to orders received by it. In the event of the Company accepting returned stock there will be re-stocking charge of 25% on invoice value.*
7. *The Seller shall not be responsible for any claims, demands, actions, causes of actions, suits, proceedings, costs, and expenses whatsoever for or arising out of or alleged infringement of patent trade mark or copyright on merchandise delivered by the Seller.*
8. *If the rate of exchange of the currency agreed upon in the purchase contract and that of the vendor's or the purchaser's country should alter, both parties are entitled to withdraw from the contract as far as outstanding deliveries are concerned and/or insofar as an adjustment of the contract price corresponding to the variation in exchange rate is unacceptable to either party.*
9. *Quotations do not include V.A.T. unless otherwise stated.*
10. *In the event of war, fire, flood, strike, labour trouble, accident, mechanical breakdown of facilities, riot, acts of God, or contingencies beyond the reasonable control of the party affected, interfering with the production, supply, transportation or consumption to the goods covered by this contract, or with the supply of any raw material used in connection therewith, the quantity of goods provided for in this contract shall be reduced by the amount so affected without liability but the contract shall otherwise remain unchanged. Seller's decision as to what quantities are affected shall be final and binding.*

## RETENTION OF TITLE

11. a) *The ownership of all goods shall remain in the Company until such time as all debts due to the Company from the Customer have been paid. Until such time as all such debts have been discharged in full the Customer shall:*
  - I. *Store the goods so as to clearly show them to be the property of the Company;*
  - II. *Hold the goods and all monies received from the sub-sale thereof as bailee and trustee respectively for the Company; and*
  - III. *At the request of the Company furnish the Company with the names and addresses of debtor sub-purchasers and all appropriate particulars thereof so as to enable the Company to recover direct from such sub-purchasers and all appropriate particulars thereof so as to enable the Company to recover direct from such sub-purchasers sums owing by them.*
- b) *The risk in the goods shall pass to the Customer upon delivery of same to the Customer and the signature of any employee of the Customer on the delivery docket shall be conclusive evidence of such delivery.*
- c) *The Company referred to above in all cases is to be HYGEIA CHEMICALS LIMITED.*

**PHOTOGRAPHS USED IN THIS CATALOGUE ARE FOR ILLUSTRATION PURPOSES ONLY. PACK SIZE AND PACKAGING IS SUBJECT TO CHANGE WITHOUT NOTIFICATION.**

*Errors and Omissions Excepted.*
